Field Laborer

Job Overview: As a Field Laborer, you will be involved in hands-on demolition, environmental remediation, and construction activities. You will work on-site, following safety protocols, and ensuring projects are completed efficiently and effectively.

Key Responsibilities:

- Perform environmental remediation activities, such as asbestos, mold, and lead removal
- Perform demolition and site cleanup tasks
- Adhere to all safety guidelines and procedures
- Collaborate with team members to ensure project success

Qualifications:

- High school diploma or equivalent
- IDPH Licensed
- Valid Driver's License
- Social Security Card
- Experience in construction or related fields is preferred
- Physical stamina and ability to perform manual labor
- Strong attention to detail and commitment to safety

Current Apprentice Starting Rate: 60% - \$30.84

Current Journey Worker Rate: \$51.40

How To Obtain Your Asbestos and Lead Worker Licenses in Illinois

1. Take the two 32-hour initial training courses for asbestos and lead, you'll take a test and after successful completion of the exam (minimum 70% score) you'll receive a certificate.

[IDPH Course Provider List](#)

2. After receiving certificates; apply for asbestos and lead worker licenses with the Illinois Department of Public Health (IDPH):
<https://dph.illinois.gov/content/dam/soi/en/web/idph/files/forms/asbestos-worker-042216.pdf> and <https://dph.illinois.gov/content/dam/soi/en/web/idph/files/forms/lead-worker-application-082317.pdf> (\$25/each)
3. Complete HazMat Physical: <https://www.concentra.com/physical-exams/hazmat-and-hazwoper-physicals/> (approx. \$550)
4. After all of these steps and having your license(s) in hand, you're eligible to work for a Union Contractor: <https://www.laborers225.org/how-to-join>
